Hi all,

These are Amber's latest notes about the treated seed petition. We are preparing questions to send to EFED and HED which will give us a little more background to pull from which will help her address the legal vulnerabilities moving forward. I look forward to meeting with all of you soon.

Best,
Quinn

Hi Amber,

There is a document that is available for some of EFED's assessments of seed treatments. We discussed more of the background about assessments during our meeting and some questions we will send to EFED and HED are along those lines. This is the document of EFED on assessments of seed treatments: <https://www.epa.gov/pesticide-science-and->

[assessing-pesticide-risks/refinements-risk-assessment-pesticide-treated-seeds](#). If you have any other questions please let me know.

Best,
Quinn

Hi Amber,

I look forward to talking with you tomorrow. I have attached the clean-ish and redlined version of the briefing paper as we have it right now. The clean-ish version still has some comments on it that we need to address as a team but many of the comments were already incorporated. If you have any questions prior to the meeting please let me know.
